

SRIDEVI D

+91-6385621870 | sridevidharmarajan18@gmail.com | [GitHub](#) | [LinkedIn](#) | [Behance / Portfolio](#) | Coimbatore, India

PROFESSIONAL SUMMARY

Final-year B.Tech (CSBS) student with hands-on experience in full-stack web development (React), UI/UX design (Figma), and Python-based machine learning. Passionate about building accessible, user-centric digital experiences. Proven ability to deliver end-to-end projects — from prototyping to deployment — and recognized at the Smart India Hackathon 2024.

EDUCATION

B.Tech in Computer Science & Business Systems 2022 – 2026

KIT – Kalaighar Institute of Technology, Coimbatore | CGPA: 8.1 / 10

HSC (Class XII) 2021 – 2022

Kids Park Matriculation Higher Secondary School, Kinathukadavu | 70.5%

SSLC (Class X) 2019 – 2020

Kids Park Matriculation Higher Secondary School, Kinathukadavu | 77.2%

EXPERIENCE

MERN Stack Intern Jul 2024

Live Stream Technologies, Coimbatore

- Developed and integrated UI components (buttons, forms, pages) using React.js aligned with project requirements.
- Built RESTful API endpoints with Node.js and Express.js, connecting to a MongoDB database.
- Collaborated with the development team to debug issues and improve code quality under a fast-paced timeline.
- Strengthened practical skills in the full MERN stack (MongoDB, Express, React, Node.js) through real project work.

PROJECTS

Tamil Speech to Tamil Sign Language Python, Speech Recognition, NLP, Deep Learning

- Designed and built a real-time accessibility tool that converts spoken Tamil into Tamil Sign Language visuals (images/GIFs).
- Leveraged speech recognition and NLP pipelines with deep learning to achieve accurate spoken-to-sign mapping.
- Focused on inclusivity by supporting the Tamil-speaking deaf community with a localized language solution.

AI-Powered eDNA Biodiversity Monitoring System Python, CNN, LSTM, Web Dashboard

- Built an AI system using CNN and LSTM models to classify environmental DNA (eDNA) species data with high accuracy.
- Computed biodiversity indices automatically and triggered conservation alerts via a real-time interactive web dashboard.
- Demonstrated applied ML skills by combining bioinformatics data processing with deep learning model development.

Task Flow – Task Management Mobile App Figma, UI/UX Design

- Created detailed wireframes and high-fidelity interactive prototypes in Figma for a cross-platform task management app.
- Applied UI/UX principles — visual hierarchy, spacing, contrast — to optimize usability and accessibility.
- Ensured WCAG-aligned readability and intuitive navigation through iterative design reviews.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js

Databases: MongoDB

Design Tools: Figma, Canva

ML / AI: CNN, LSTM, NLP, Speech Recognition, Deep Learning

Platforms: Salesforce (Sales Operations)

Areas of Interest: UI/UX Design, Web Development, Software Development Engineering

CERTIFICATIONS & ACHIEVEMENTS

- Google UX Design Professional Certificate – Coursera
- Salesforce Sales Operations – Coursera
- Smart India Hackathon 2024 – Ranked among top performers at the college-level round (Sep 2024); demonstrated innovation in national-scale problem-solving competition.
